

**Independent Certification
Organization**

**Reliable & Independent
Certification with Guaranteed
Accuracy and Quality**

Why Choose **LABOR**?

At **LABOR**, we don't just provide certifications—we deliver solutions that drive your business forward.

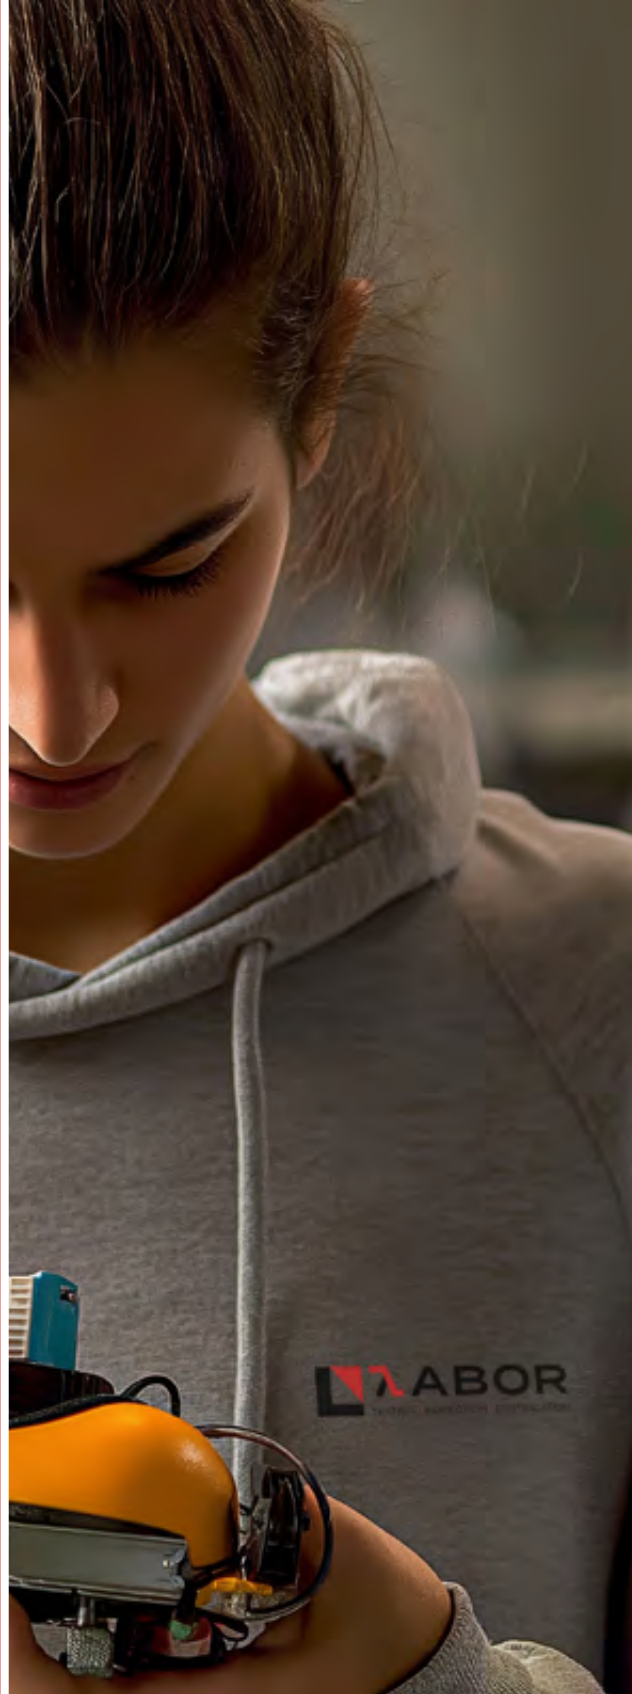

With **LABOR** by your side, you gain the confidence to elevate your business, backed by a trusted partner every step of the way.

LABOR's Certification Services: Drive Trust, Safety, and Sustainability today

At **LABOR**, we do more than just certify - **we empower your business to thrive with confidence**, ensuring **safety, quality**, and **sustainability** at every step.

Whether you're launching innovative products, optimizing operational standards, or adopting eco-friendly practices, our certifications serve as your key to success in a competitive marketplace.

Product Certifications: Your Passport to demanding markets

As a manufacturer, earning the trust of your customers begins with ensuring your products **meet the highest safety and performance standards.**

At **LABOR**, our product certifications not only help you comply with the necessary regulations but also elevate the reputation of your brand. From household appliances to cutting-edge radio equipment, we're here to certify your products and ensure they shine in the marketplace.

Electrical Equipment Certification: A Legacy of Safety

LABOR is proud to be the first non-governmental organization offering **quality certification for electrical equipment**. Our reliable certification guarantees your products are safe, reliable, and ready to meet the market's toughest demands.

From household gadgets to vital public infrastructure like traffic lights, we help ensure your **electrical products** are **compliant, efficient, and trustworthy**.

The background of the entire page is a photograph of a radio tower at night. The tower is a complex metal structure with various antennas and equipment. It is illuminated with warm orange lights, and some parts are lit with bright yellow lights. The tower is set against a dark blue night sky. In the lower right, a large, circular, orange-colored antenna is visible. The city lights of a city are visible in the background, creating a bokeh effect.

Radio Equipment Certification Under the RED Directive

Navigating the complex world of radio equipment regulations can be challenging. As an EU Notified Body, **LABOR** makes it simple. We certify a range of communication devices, from handheld transmitters to NAVTEX systems, ensuring compliance with the RED Directive (2014/53/EU).

Our process helps you get your products to market quickly, knowing they meet the European standards for safety and performance.

**Let's innovate a new era of trust,
safety and sustainability**

TOGETHER

EMC Certification: Safeguarding Performance

For electronics and electrical products to perform reliably without causing interference, they need to meet the **Electromagnetic Compatibility (EMC) Directive (2014/30/EU)**.

With **LABOR's** certification, you ensure your devices—from alarm systems to escalators—are free from electromagnetic interference, helping them operate smoothly and efficiently.

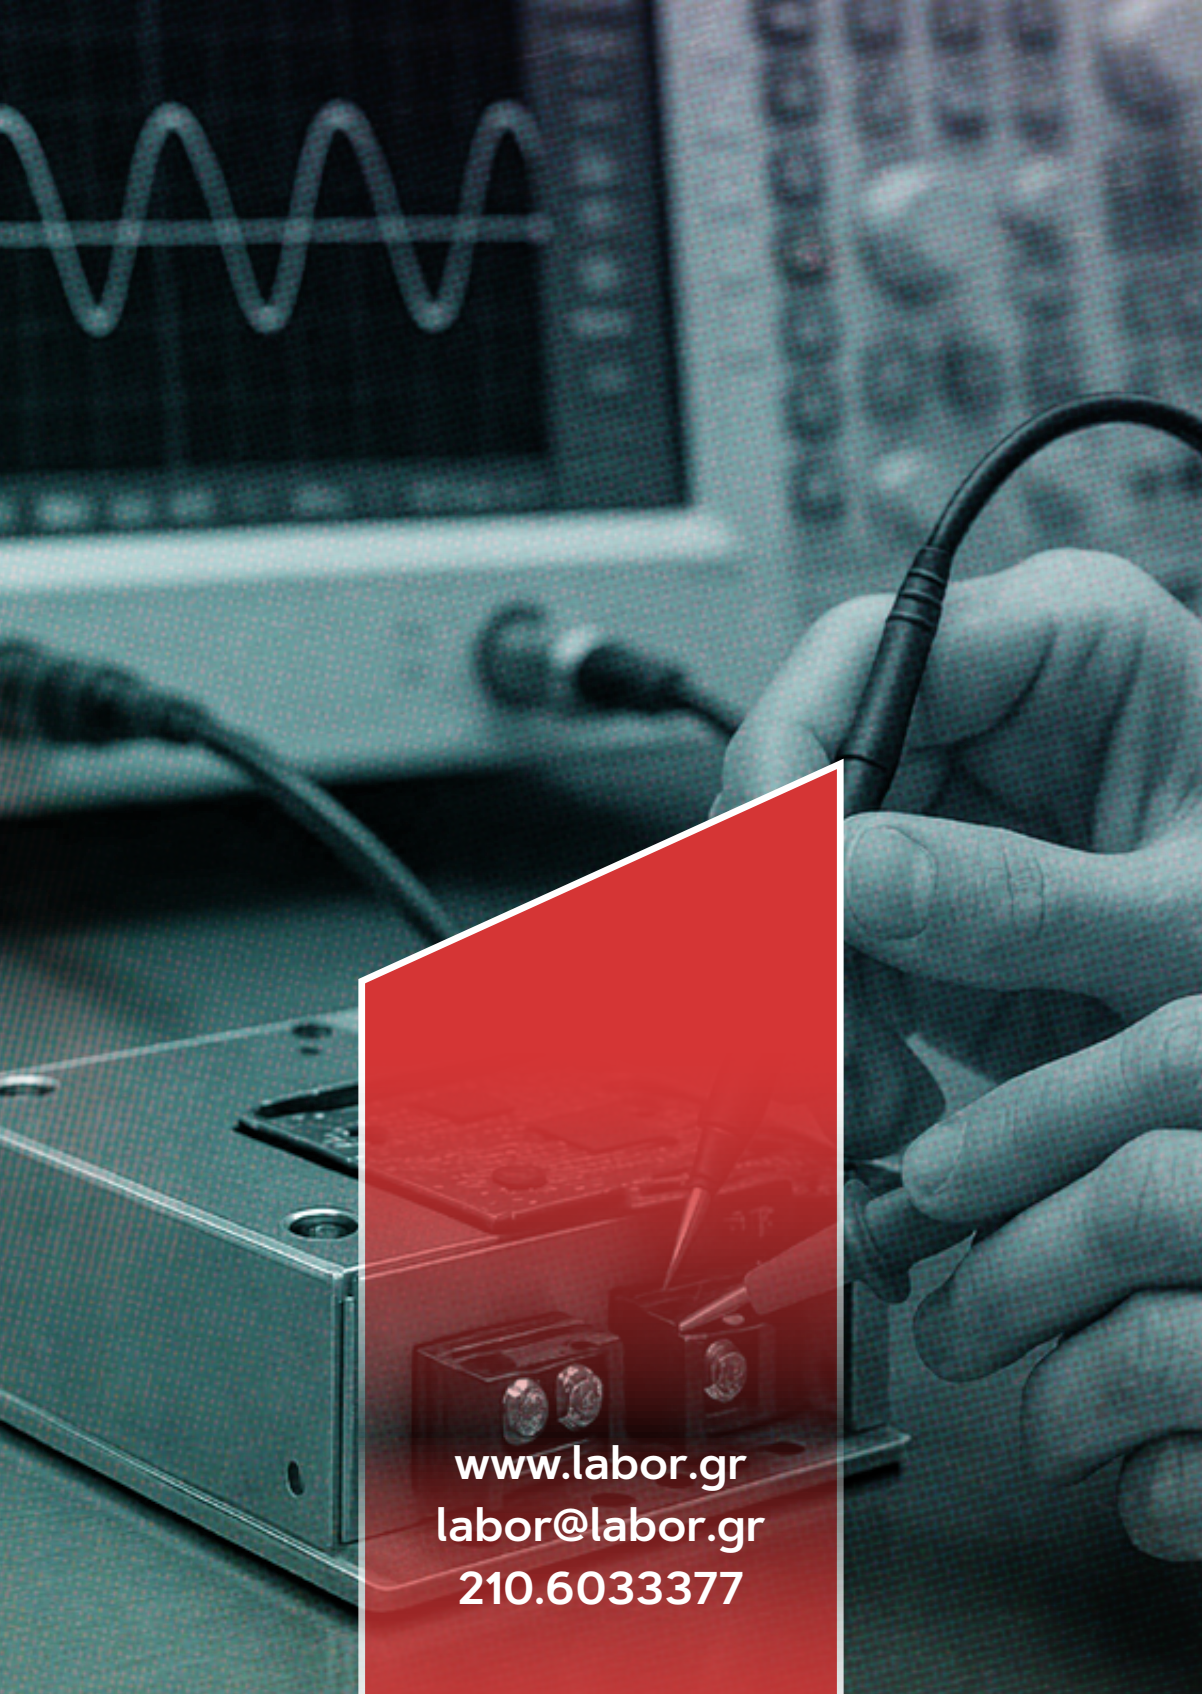

Sustainability in IT Equipment: Lead the Charge with LABENERGY & LABGREEN

Sustainability is no longer a choice—it's a necessity. **LABOR's LABENERGY** and **LABGREEN certifications** help you exceed energy efficiency standards and reduce environmental impact.

Whether you're producing IT equipment or embracing eco-friendly practices, our certifications guide you to make smarter, greener choices.
