

LABOR S.A. - CERTIFICATION AND TESTING SERVICES FOR THE MEDICAL SECTOR

Independent and Reliable Certification for Medical Products and Services

LABOR S.A. (LABOR), is a leading Greek certification body, founded in 1996, specializing in ensuring quality and safety in the medical sector. Recognized for its impartiality and accuracy, it provides reliable certifications and testing based on international standards and collaborations with universities and laboratories both in Greece and abroad.

Certification of Medical Products and Services

LABOR provides certifications for a wide range of medical products and services, including medical devices and equipment, ensuring full compliance with comprehensive health and safety regulations.

Advantages and Benefits for the Medical Industry

FOR MEDICAL PRODUCT MANUFACTURERS:

- **Compliance with International Health Standards:** We ensure that your products meet all regulatory requirements, enabling their availability in EU markets and internationally.
- **Recognition and Reliability:** CE marking and quality certifications from **LABOR** enhance the trust and reputation of your products within the medical sector.
- **Safety and High Performance:** Our rigorous testing ensures the safety and functionality of your products in environments with high demands.

FOR HEALTHCARE SERVICES AND MEDICAL FACILITIES:

- **Safety and Quality of Services:** Certification and inspections of services and facilities provide guarantees for the quality and safety of medical equipment and procedures.
- **Compliance with Regulations:** We ensure that medical facilities meet the requirements of national and international regulations, reducing the risk of legal and operational issues.

SERVICES FOR MEDICAL ORGANIZATIONS AND BUSINESSES:

- **Medical Device Certification (CE Marking):** We assist businesses in securing the necessary CE marking for medical devices, ensuring compliance with EU directives.
- **Safety and Performance Testing:** Our laboratories conduct strict testing for the electrical and mechanical safety of medical devices, ensuring they meet safety and efficacy standards.

Key Benefits of your Partnering with LABOR in the Medical Field:

Independence and Impartiality: LABOR is fully independent, ensuring impartial and reliable certification processes.

Partnerships with Global Laboratories and Universities: Through our collaborations with specialized universities and accredited laboratories, we provide the latest technology and reliable measurements.

Ensuring Compliance with International Standards: Our certifications guarantee compliance with the strictest international medical sector standards and regulations.

Fast and Efficient Service: We offer rapid and efficient service, reducing certification times without compromising on quality.

Expertise in Ensuring Medical Quality

LABOR offers comprehensive solutions for medical companies, ensuring that their products fully comply with quality and safety standards. CE certifications for medical devices, along with specialized safety tests, guarantee the successful market placement of your products and compliance with applicable medical regulations.

**LABOR S.A. NOW SERVES THE MEDICAL SECTOR:
